

Parenting is a challenging job. Teaching children Christian values in today's society is becoming increasingly difficult. St. John's recognizes these challenges and exists to assist parents by providing a Christ-centered education to children in Pre-K3 through 8th grade. We educate to foster the spiritual, academic, social and physical growth of each student.

We pledge:

1. To assure each student that he/she is a redeemed child of God.
2. To incorporate Christian values in all secular areas including: Mathematics, English, Reading, Science, and Social Studies.
3. To teach children to use their God given talents, abilities, and earthly treasures to glorify God and for the welfare of others.
4. To prepare children to be Christian citizens and to respect and honor those in authority, established by God.
5. To assist children in completing the requirements needed to graduate from St. John's and be well prepared for their secondary education.
6. To partner with parents to work as a team to make the best choices for their children's education.

Pre-Kindergarten

We believe that Christian Education is essential and should begin early in a child's life.

Our prekindergarten program is built upon the following principles:

- ◆ Experience, knowledge and dedication of our instructors
- ◆ Foundational instruction in letters, numbers, colors, shapes, etc
- ◆ Development of social and emotional skills
- ◆ Daily and cross curricular instruction about Jesus, their Savior

Roots to Wings offers Pre-K3 and Pre-K4 classes to children in Lake City and its surrounding communities.

If you have any question about our Prekindergarten program please contact Katie Siverly, Learning Center Director. Her contact information can be found on the back of this flyer.

"Train up a child in the way he should go, even when he is old, we will not depart from it. "

Proverbs 22:6

Kindergarten

St. John's offers an exceptional, full day Kindergarten program. This classroom has a dedicated teacher who brings years of experience, both in curriculum and different learning styles. The environment she creates allows for differentiation in an optimal learning community. All subjects are taught in the light of God's Word

The students continue learning number sense, use of letters, begin reading simple books and much more.

Grades 1-8

As students advance in grades, all subjects become increasingly difficult. This challenges our students to be the best they can at any grade level.

St. John's offers the following at these grade levels:

- ◆ Exceptional teachers who use their God-given abilities to teach all subjects
- ◆ An understanding that each child is unique and possesses individual gifts and abilities
- ◆ A philosophy for educating the whole child: mind, body, and soul
- ◆ A solid foundation on Christ crucified, our Savior from sin
